

DREAMHAVENCARAVANS.COM.AU

The brand

Crusader are the creators behind Dreamhaven. And we've always believed caravanning should be simple, joyful, and something more Aussies can say yes to.

Because when you think about it, the good stuff is pretty simple. The quiet bush, the coastal road, the campsite your old man swore by. It's not about bells and whistles. It's about time well spent, and memories you keep coming back to.

As a matter of fact, the name goes all the way back to where it began. Crusader's very first factory was on Dreamhaven Court in Epping, Victoria. The place where our dream kicked off.

We've spent years perfecting the award-winning Crusader range. But for every seasoned caravan owner, there's someone just starting out. We saw an opportunity to build something simpler. A caravan that still feels right, without the hefty price tag.

So we brought Dreamhaven back. Not to launch something new. But to open the doors to more people who love the lifestyle as much as we do.

Our founder, Serge, worked tirelessly with our design team and suppliers to make it happen. Fueled by his passion for making Aussie-made composite caravans accessible at a fair price, our team refined layouts and sourced the right components to bring Dreamhaven to life.

We're proud as punch of the work. And even more chuffed to be helping more Aussies get out there to enjoy the big backyard.

What we're about

Every Dreamhaven caravan is proudly made in Australia by Crusader. Where smart design meets quality materials for a caravan that takes you further, without costing the Earth. All built by skilled hands at one of the most advanced facilities in the country.

We're committed to supporting businesses from our own backyard. It keeps quality high and jobs local. We wouldn't have it any other way. It's why most major components are made right here in Victoria. For all our other suppliers, if they're Aussie-owned and based, they're top of our list.

Looking good is easy. Long-lasting takes work. It's why Dreamhaven uses strong, lightweight composite panels, built right here on Aussie soil.

Crusader Caravans helped pioneer composite caravan builds. Their years of experience proved one thing. The best insulation and protection comes from panels made as a single, seamless piece. That's the know-how Dreamhaven draws on to create caravans built for years of priceless memories.

What does an ocean breeze, muggy summer days and creepy crawlies have in common? They all love timber, which is why we don't. Our floors, roof and walls are timber-free panels. So there's no rot, decay or insect damage to worry about. After all, timber is better used for toasting marshmallows anyway.

Great materials are only part of the story. You need the know-how to put them together the right way. Everything is carefully crafted by experienced hands, then checked from top to tail before it's ready to roll. Because good value means doing it right.

AUSSIE MADE BY CRUSADER

Step into the story

Dreams don’t all look the same. Some are about rolling out with the car packed and the road stretching ahead. Others are about leaving the big smoke behind and finding places where the peace feels bigger than the sky.

That’s why Dreamhaven keeps it simple with two ranges built around comfort, style and value: The Tourline and the SuperX.

From solo travellers to couples, from families to fur babies, we’ve got you covered. There’s ten individual models to choose from.

TOURLINE SERIES

BUILT FOR THE LONG WAY HOME

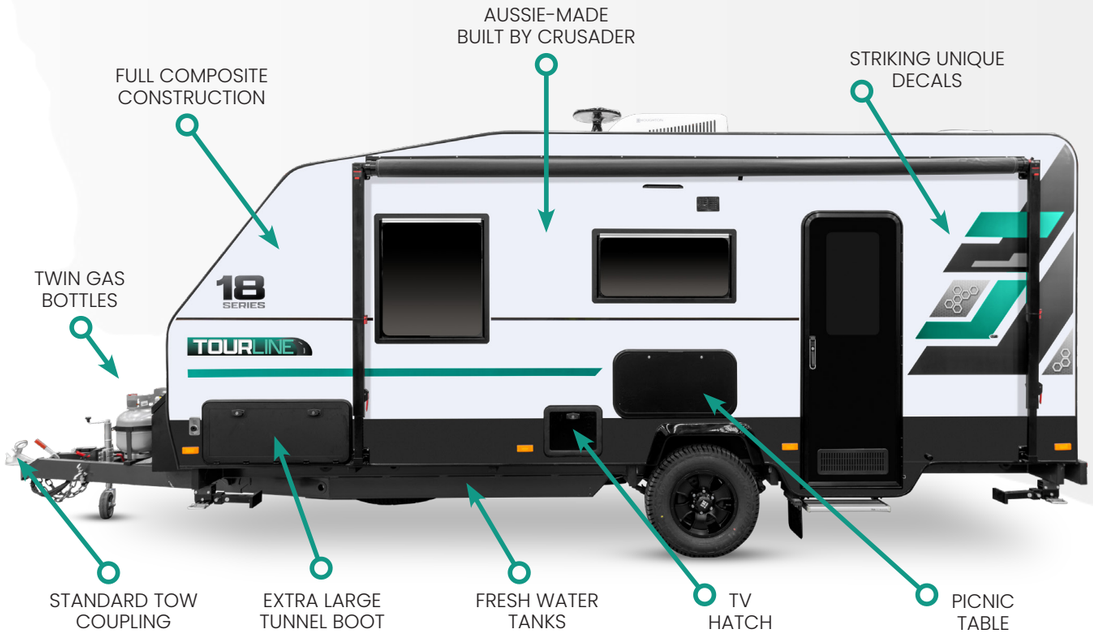

Disclaimer: Information presented in this brochure is accurate at the time of printing (27/05/2026). TOURLINE

The car's packed, the kids are in the back (maybe the dog) and you're rolling out for your first big weekend away. The Dreamhaven Tourline is where comfort, practicality, and freedom come together — designed to take you beyond the everyday without overcomplicating the ride. With the Tourline, everything's easy. It's built for the savvy caravanners, from first-time owners to families and couples. All the essentials for highway cruising and comforts for the perfect weekend getaway. Simple, enjoyable holidays without the big price tag.

THE SIMPLE WAY TO GET AWAY.

On the outside, the Dreamhaven is built tough and light, with a well-insulated body, quality construction, and smooth towing capability. It's a great fit for both seasoned nomads and first-time explorers. Whether it's a quick weekend away or the beginning of something much bigger, the Dreamhaven Tourline makes it all feel simple.

Optional extras and accessories shown in images may not be included in the standard model. Please consult your local dealer for the most up-to-date information.

SUPERX

Say g'day to the Dreamhaven SuperX! It takes everything great about the original Dreamhaven, built for folks who like their adventures with a bit more dust, a bit more distance, and a whole lot more freedom. The city feels a world away. The road's rougher, the sky's wider and the fire crackles under the stars. The SuperX gives you more freedom to chase that feeling. Built with rugged features for more challenging tracks. CrusadAir Airbag suspension, extra solar and 2000W inverter help you stay off-grid. All with the creature comforts inside to make the wild feel like home.

THE SUPER WAY TO GET AWAY.

Inside, you've got all the gear: comfortable bedding, full ensuite, spacious kitchen, and smart storage to fit everything from fishing rods to fairy lights. Plus, it's loaded with off-grid gear — solar, lithium battery, and water tanks big enough for a proper scrub after a day in the red dirt.
